

JOBS TO APPLY — CLICKABLE ACTION LIST

Nandhakumar M · Senior .NET Full Stack Developer · +91 80721-27298 · Prepared **24 August 2026**

Every green **APPLY** button below is a live link — click it and it opens the application page. Grey **Company** buttons open that employer's Naukri company page (their other openings, reviews and profile). Links were taken from the live job postings, not typed from memory. **Nothing here has been applied to yet** — these are the ones that need you.

0 DO THIS FIRST — you have already been shortlisted and may not know

COMPANY	ROLE	LOCATION	WHY IT'S URGENT	OPEN
Uster Technologies	Senior .Net Developer	Coimbatore	SHORTLISTED They viewed your contact details. Furthest any application has progressed — chase this before anything else.	Application status

1 NAUKRI — MUST BE APPLIED BY YOU — these route to "Apply on company site", so an external form opens instead of using your Naukri résumé

COMPANY	ROLE	LOCATION	EXP	WHY IT FITS	LINKS
Sierra Odc	Senior Dot Net Developer	Coimbatore	4–7 yr	BEST MATCH JD reads like your résumé: ".NET Core and ASP.NET Core MVC, RESTful Web APIs, SQL Server, Entity Framework Core" and "React.js is a plus". Local.	APPLY Company
Utthunga Technologies	Senior React + .NET Full Stack Developer	Bengaluru	5–6 yr	React + .NET full stack — matches the new positioning directly. Note: PostgreSQL rather than SQL Server.	APPLY Company
SigmaSoft Infotech	Senior .Net Full Stack Developer	Bengaluru	5–8 yr	Wants "HTML, CSS, JavaScript and jQuery" — your exact front-end history, no Angular anywhere.	APPLY
Spadtek Solutions	Senior C# .Net React Full Stack Developer	Bengaluru / Hyderabad	5–10 yr	C# + .NET + React senior role for a Fortune-500 implementation partner. Match score showed Keyskills, Location and Work Experience all green.	APPLY Company
Kaar Infotech	Senior .NET Developer — Global Microsoft Client	Coimbatore / Erode	3–5 yr	Preferred Microsoft vendor, local. You sit at the top of the band, so lead with the Technical Lead framing.	APPLY Company
Timbertruss	.NET Software Developer	Coimbatore	3–8 yr	Local product role on .NET Core. PostgreSQL rather than SQL Server — worth a look, weaker match than the ones above.	APPLY Company

2 LINKEDIN EASY APPLY — ONE CLICK EACH — pick the 24 Aug (169 KB) résumé when the file list appears, not the 22 Aug one

COMPANY	ROLE	LOCATION	WHY IT FITS	OPEN
Grid Dynamics	Senior Dotnet Developer	Chennai — On-site	Clean senior .NET title, actively reviewing applicants, engineering-led firm.	APPLY
Zuci Systems	Lead Dotnet Developer	Chennai — On-site	Lead title matches the Technical Lead half of your profile, which most postings ignore.	APPLY

Andor Tech	Dot Net FullStack Developer	Bengaluru — On-site	Straight .NET full stack, no Angular or cloud requirement in the title.	APPLY
Incedo Inc.	Dotnet Developer	Hyderabad — Hybrid	Target city, hybrid, and you have already viewed it.	APPLY
(posting title only)	Sr. Net Full Stack Developer (Contractual)	India	Contract role — only pursue if you are happy with contract terms.	APPLY

3 FIX THESE TWO PLATFORMS BEFORE APPLYING ON THEM

Indeed and Hirst are both serving an out-of-date résumé. Applying through them right now would send a document that still makes claims your résumé has since retracted ("500+ vulnerabilities", "no SLA breaches"). Upload the corrected file first — it is at D:\Resume\Nandhakumar_M_Senior_DotNet_FullStack_Resume_v3.pdf (169 KB, 24 Aug) and a copy is in your Downloads folder.

PLATFORM	HOLDING	WHAT TO DO	OPEN
Indeed	V2 — 14 Aug	Resume › replace with the 24 Aug file. While there, fill Qualifications (skills, experience, education) — that is what Indeed's matching engine actually reads. Then job search works normally.	Profile My jobs
Hirist	23 KB — 28 May	Personal details step › Upload new resume. Also fix preferred locations — it currently lists Mumbai and Pune (not targets) and is missing Hyderabad.	Résumé & details Profile

4 ANSWER SHEET — KEEP THESE IDENTICAL EVERYWHERE

Recruiters cross-check across platforms, and these are the answers already given on the six applications sent on 24 Aug. Reusing them keeps your story consistent.			
QUESTION	ANSWER	QUESTION	ANSWER
Total experience	5 years	React.js	1 year — never inflate this
C# / .NET Core	5 years	Current .NET version	.NET 8
ASP.NET / MVC	5 years	Frontend framework	React (never Angular)
SQL Server / T-SQL	5 years	Database	SQL Server only
Entity Framework Core	4–5 years	Banking / Financial domain	0 — domain is procurement, inventory, supply chain
Angular / AWS / Azure / GCP / Vue / Blazor / Docker / K8s / GraphQL	0 — no experience	Azure DevOps (the tool)	Yes — distinct from Azure cloud
Current CTC	₹5,52,000 fixed (5.52 LPA)	Expected CTC	8 LPA — matches your Naukri & Hirist profiles
Notice period	15 days or less — immediate	Willing to relocate	Yes — Hyderabad, Bangalore, Chennai
Current location	Coimbatore	Contract / C2H	Yes — confirm this is still what you want

5 DELIBERATELY NOT APPLIED TO — SO YOU DON'T WASTE TIME RE-FINDING THEM

COMPANY / ROLE	REASON	DETAIL
Altimetrik — .Net core React Full Stack	FRAUD PATTERN	The posting asks applicants to email PAN card number plus name and DOB "as per aadhar card" to an individual address. Requesting government IDs before an offer is an identity-harvesting pattern. Do not send those details. If the role genuinely interests you, insist on a company HR process that does not collect IDs up front.

Cloudxtreme — .net fullstack developer	PERMANENT AVOID	Previously demanded a PAN card number at application stage. Already on your avoid list; it reappears in Coimbatore search results, so recognise the name.
HTC Global · Kiash · Techstar · Stack Digital · Concentrix	Azure required	Each names Azure services, Azure SQL or Azure serverless in its core requirements. You answer Azure = 0, so these fail at screening.
Infosys · Cognizant · Enterprise Minds · Trasol · Cloud Assert · VAYUZ	Angular-led	Angular appears in the job title or as a primary requirement.
Luxoft — Core Support Full Stack Engineer	GraphQL + 3 yr React	GraphQL is mandatory (you have none) and it wants 3+ years of React v18 against your 1. It is also a production-support role rather than development.
DSS Systems (Indeed) — Dot Net Developer	Pay below current	₹15,000–50,000 per month tops out around ₹6 LPA and starts well under your current ₹5.52 LPA.
Seneca Global · Utthunga (3–4 yr) · Relq · Premsoft · IVY Mobility · CareerXperts	Below level	Bands of 2–5 years, or titles like "Junior Software Engineer", against a 5-year senior profile.

6 WHERE TO CHECK WHAT HAPPENS NEXT

PLATFORM	WHAT TO LOOK FOR	OPEN
Naukri	Application status — moves through Applied → Sent → Viewed → Resume Viewed → Shortlisted. Six statuses already sit past "Sent".	Application status
LinkedIn	Job tracker › Applied. Also watch the "Did you hear back?" prompts on each card.	Job tracker
Indeed	My jobs › Applied. Five already show "Application viewed".	My jobs
Hirist	Applications tab, once the résumé is updated.	Profile

Prepared 24 August 2026. Companion documents: [Job_Applications_Monthly_Tracker.pdf](#) (all 113 applications, month by month) · [Job_Applications_Tracker.pdf](#) (agent run log). All links captured from live postings on 24 Aug 2026 — job posts expire, so apply sooner rather than later.
